WELCOME OUR COMPANY

We appreciate you taking the time to go through the Noor Al Baheya profile. This is a great opportunity for us to Communicate our services and key competitive strengths to you.

This profile is designed to provide you with an introduction to Noor Al Baheya, and we hope and look forward to meeting our clients Personally to develop a relationship through one-on-one Interaction shortly.

Since our inception in 2004, we have developed a trusted and Reliable construction company by building lasting relationships with our clients, employees, suppliers and contractors. With over years of work under our belts, we continue to learn, and build from this experience.

We thank all those who have contributed to the development of Noor Al Baheya Company over the years, and we thank you for your interest in our Company, and look forward to working with you

ETHICS

We at Noor Al Baheya remain true to our founding values of providing quality, honest and hard work, instilled right from the outset by our founder.

Noor Al Baheya has the honor and privilege of leading some of the good projects.

STAFF

We recognize that our primary asset is our people, and that a truly successful company needs to be a rewarding work environment for its staff. Our organization is structured and managed to provide ample opportunity and encouragement for our team to reach their optimum potential.

PHILOSOPHY

Lasting relationships are the lifeblood of business in our industry. At all times, we strive for solutions that best achieve our contractors & client's needs and goals.

ABOUT US

Noor Al Baheya is an epitome of Electromechanical industry in UAE, with industry leading clientele & Outstanding reputation since 2004.

We started our journey in 2004 with small projects, residential villa's, residential housing schemes, and started to develop our relations with MEP contractors, consultants and developers.

By the end of 2006, with sheer dedication & passion of our CEO and team, in Electromechanical feild, we started achieving, what we once dreamed off. We secured our first big project valued at 20million. And after that we were unstoppable in completing our milestone year by year.

Today, Noor AL Baheya Electromechanical works llc, as a company stands out in performance, with excellent workmanship skills, Talented and passionate Engineers, designers and workers.

We have played our part in developing UAE for 15years straight, by completing numerous projects for government, investors, developers and consultants. We forecast, by 2020 there will be more development coming in our way, and we keep serving the country of UAE.

Our core business and speciality is Electromechanical works in projects is, Electrical high and low current, Plumbing, MEP Services, wiring layout, MEP structure layout, Firefighting equipment supply and installation, Security systems.

We assure all our clients quality work delivered in time. We never fail in understanding our clients needs and the specifications to be carefully delivered as required. Moreover we believe in mantra of giving more then asked, serving more then paid, doing more then required to make our clients satisfied with our work. Success comes with clients satisfation and trust in our work.

GENERAL MANAGER MESSAGE

MR. ABDULLAH MOHAMMED HASSAN KHADER
GENERAL MANAGER

“

On Behalf of our whole staff, I would like to extend a warm welcome to all of you at NOOR ALBAHEYA ELECTROMECHANICAL WORKS.

A Journey of success always requires the qualities of foresight, and preparedness. All these along with the power of trust are the core of all operations. Our inspiration comes from your trust and willingness to believe in our capability to deliver.

I would like to thank every person on our team, professionals and administrative personnel, who work relentlessly term after term to assist and guide our clients towards success.

”

VISION & MISSION

Vision

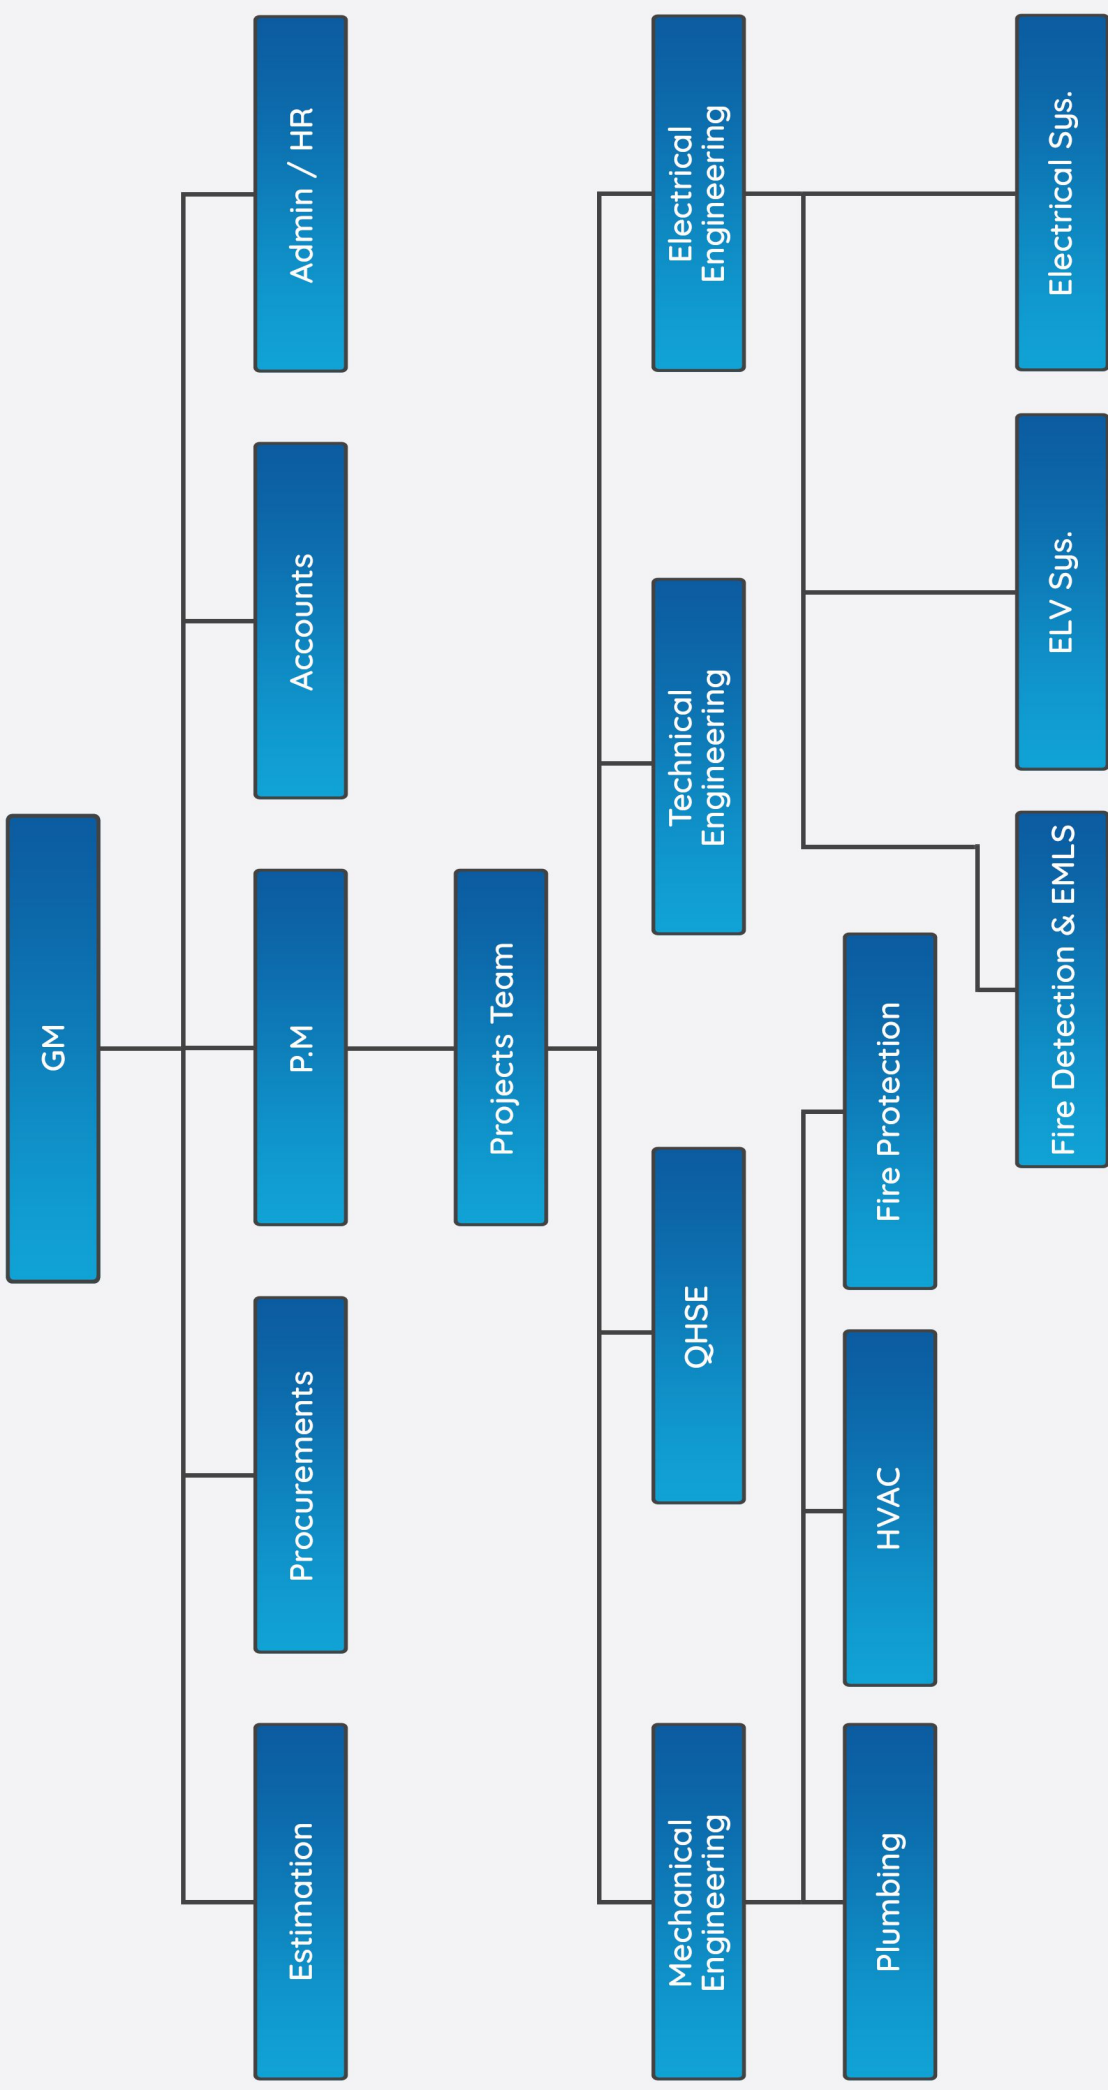

We endeavor to understand our Customer's Requirement so well as to Be able offer Comprehensive Services for that

Mission

- Deliver outstanding services by treating each individual as we ourselves would like to be treated. Pursure profit but never at the cost of quality, services & reputation.
- Build relationship with our Clients based on fairness and Trust.

ORGANIZATION CHART

OUR SERVICES

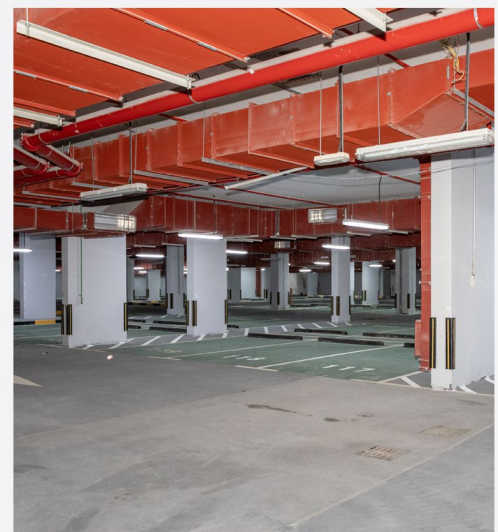

HVAC Works

Noor Al Baheya strives to offer a high-level of expertise within the complete mechanical engineering line. Our engineers design a variety of projects as per demand/requirements of our valuable clients/ main contractors/ consultants. We are able to provide assessments, recommend alternatives and provide a properly designed high-functioning system to meet the clients very specific individual need.

Design & Carry Out

- All DX Split AC Systems
- VRV (VRF) AC Systems
- Chillers & Chilled water Plants
- Chilled water systems & networks
- Chilled water pumps
- Chemical dosing system
- All kind of duct works & Air distribution
- Fire rated duct & Fire barrier systems
- Smoke management System
- Air outlets & Accessories
- FAHU's & AHU's
- Ventilation system

Plumbing Works

Noor Al Baheya plumbing engineers design with a whole project approach and are capable in influencing high water efficiency, energy, fire protection, pollution systems and a sustainable site. We are able to provide assessments, recommend alternatives, and thus provide high-functioning systems that meet the client’s very specific individual requirements as well as assisting in conserving natural resources.

Design & Carry Out

- Water supply distribution networks
- Electrical & solar water heaters
- Hot & Cold central water systems
- Domestic Water pumps
- Water tanks & storage
- Drainage networks
- Sewerage treatment & Filtration
- Systems
- Irrigation systems
- Sewage Water pumps
- Sanitary-ware & Accessories

Electrical Works

Our engineers are able to provide designer services for electrical distribution and lighting systems on a variety of projects thus having an in-depth knowledge base to draw upon. We work very closely with the client to provide accurate assessments, recommend alternatives, and thus provide an environment that is highly functional, safe and aesthetically pleasing to the client.

Design & Carry Out

- Lighting & Power System
- Wiring Accessories & Light Fixture
- Switchgear & Distribution Boards
- LVP's & Electrical Rooms
- Bus-bar & Power Distribution Systems
- Earthing & Lighting protection Systems
- Cables, Termination & Addressing
- Cable Tray, Trunking & Distribution
- MCC's & MCP's
- Solar PV Systems
- Elect. Stand-by & Duty diesel Generators
- Conduiting & Containments

Fire Fighting & Fire Alarm System

We provide the most comprehensive engineering solutions and services in the field of fire Fighting & Fire Alarm system. We are able to provide assessments, recommend alternatives and provide a properly designed high-functioning system to meet the clients very specific requirements.

Design & Carry Out

- Fire Pumps & Fire Pump Rooms
- Fire Network & Sprinkler System
- Fire Hose Reel Cabinet's
- Clean Agent Systems
- Water spray / Deluge Systems
- Foam Spray System
- Pre-action System
- Fire Alarm Systems
- Voice Evacuation Systems
- Emergency Lighting System

Data & ELV System

Our professional team are able to provide designer services for all kind of low current services for a nenerous type of projects thus having an in-depth knowledge base to draw upon. We work very closely with the client to provide accurate assessments, recommend alternatives, and thus provide an environment that is highly functional, safe and aesthetically pleasing to the client.

Design & Carry Out

- Data & Telephone Networks
- ODF, IDF & Main Tel. Rooms
- Structure & Fiber Cabling & Networks
- MTV, SMTV & IPTV Systems
- Audio & Video Intercom System
- CCTV System's
- Back Ground Music System's
- Home Automation & Control Systems
- Gate Barrier & Parking Systems
- Access Control & Smart Entrance Control

QHSE POLICY (QUALITY HEALTH SAFETY & ENVIRONMENT)

Policy

Noor Al Baheya strives to achieve a best practice in the field of MEP in synchrony with quality, health, safety and environment. Our objective is to stimulate improved and effective performance through employee participation on all levels. The continuous improvements are aimed at enhancing productivity, client relationship satisfaction, control and assurance on quality, providing training, health and safety, as well as protecting the environment.

Quality Management System Procedures

Noor Al Baheya follows Quality Management System Procedures to monitor the management system in line with the International Standard. The management is keen on implementing these procedures and seeks to attain accreditations and certifications from International Standard Organizations.

Health, Safety, & Environment

We are focused on the safety of our workforce and protecting the communities where we operate. We provide full and extensive training for our people, and our processes are fully in-line with international health, safety and environment (HSE) standards.

OUR DEPARTMENTS

Duties here include preparation of detailed Bill of Quantities and project evaluation as per the Consultant's design drawings and specifications.

Design & Drafting Department

This department consists of innovative Engineers and skilled draughtsman capable of delivering concept designs, engineering designs, shop drawings and built drawings for all mechanical, electrical and plumbing projects. The personnel in this section possess the requisite skills needed to design electrical networks and distribution systems up to 33KV.

Tender & Estimation Department

This section is constituted of handpicked engineers, technicians and interior decorators known for their excellence in service delivery and innovation. Benefits to our clients:

Saving senior member efforts in large volume repetitive work of sending similar information in large number of PQQ responses Our clients do not spend resources in PQQ search Clients do not have to spend effort in PQQ response Our knowledge due to our experience ensures quality response

Planning & Quantity Surveying

Duties in this division include preparation of take-off quantities and comparison of these quantities with the approved drawings for identification of any variation in quantity and dimensions. It provides accurate information on project schedules and constantly monitors activities in order to identify and eliminate the factors that could delay the project. Work notifications are checked here in this section ensuring error-free monthly payment certificates.

CERTIFICATE OF REGISTRATION

This Certificate has been awarded to

NOOR AL BAHEYA ELECTROMECHANICAL WORKS LLC

P.O. BOX 117808, OFFICE 107, LULU BUILD.
ALMUTEENA STREET, DEIRA, DUBAI, U.A.E.

In recognition of the organization's Management System which complies with

ISO 14001:2015
Environmental Management System

The scope of activities covered by this certificate is defined below

1. ELECTRICAL FITTING CONTRACTING
2. ELECTRO MECHANICAL EQUIPMENT INSTALLATION AND MAINTENANCE
3. AIR CONDITIONING, VENTILATION & AIR FILTRATION SYSTEMS INSTALLATION & MAINTENANCE
4. PLUMBING & SANITARY CONTRACTING

Certificate Number: **SISBALE102019129**
Date of Issue of Original Certificate: **30.10.2019**
Date of Issue of latest certificate: **30.10.2019**
Expiry Date: **29.10.2020**
Re-certification Due on: **30.09.2022**

Note: This certificate is valid only if produced with the continuation letter after the surveillance is carried out successfully.

The Organization's documentation and implementation has been reviewed and found to comply with the relevant standard rules. This certificate of Registration is based on the evaluation of the mentioned scope given above. Organization is responsible for maintaining the responsibilities of the relevant standard rules. Any significant changes in the scope of the certification or standard referred above render this certificate invalid. This is an accredited certificate issued by SIS Certifications Pvt. Ltd. sanctioned for issue by International Accreditation Services, 3060 Solum Street Suite 100 Brea, California 92821-1732, USA.

ENVIRONMENT & SUSTAINABILITY

Noor Al Baheya strives to offer a high-level of expertise within the complete mechanical engineering line. Our engineers design a variety of projects as per demand/requirements of our valuable clients/ main contractors/ consultants. We are able to provide assessments, recommend alternatives and provide a properly designed high-functioning system to meet the clients very specific individual need.

- Implement and maintain an effective Environmental Management System that meets the ISO 14001 requirements. This ensures risks to the environment are identified, assessed and appropriately eliminated or controlled.
- Promote environmental awareness among employees and subcontractors via regular training, which includes clearly defining roles and responsibilities.
- Foster a shared sense of responsibility for the environment from management through to subcontractors and individuals.
- Control construction related impacts related to noise, vibration, groundwater, air quality, water quality, land contamination and preservation of heritage.
- Promote the efficient use of resources and waste management principles of reduce, reuse and recycle.
- Seek to reduce the consumption of resources, including energy, water and materials.
- Provide trained staff to establish and monitor objectives and set targets to ensure continuous improvement.
